To Be a Good Traveler

The summer holiday is coming. Many people have started planning their travel. Why not choose a green travel or voluntourism?

Wherever we go, choose public transport as much as possible, such as walking and riding a bicycle. Don't drop litter carelessly so that we can protect the environment and the water. We can also do some voluntary work, like helping the old and kids during the trip. Before leaving, we'd better buy some local products. It's a good way for us to support the development of local tourism.

Let's be a good traveler with awareness of environmental protection.

Dear students,

In some parts of our country, there are many children out of school. Their poor family can't afford a good education for them. At the same time, children don't have enough money to buy school things.

In my opinion, going to school is each child's basic right, but there are few chances for these poor children. So we should try to do something to help them, just like giving them school things, clothes and so on.

We hope they will have the same chance of getting knowledge as we do. And we believe if we work together, we can make a better future for them.

Thanks for your joining!

Dear Sir/Madam,

My name is Wang Hua. I'm 14 years old. I hear our city will hold the international dragon boat competitions. I'd like to work as a volunteer for it. Now I have graduated from middle school. I'm 1.65 meters tall. I'm good at English and I can speak English very well. I love doing sports, too. I'm helpful and like to make friends. I can introduce my hometown to the visitors from home and abroad well. If I can be a volunteer, I will follow the rules and do my best to work hard for the competitions.

I'm looking forward to your reply.

Yours sincerely,

Wang Hua

Here are some manners that children should be advised to use in public.

First, say hello to people they know. They can also shake hands with people if they meet for the first time.

Second, use “indoor voices” indoors. They should keep quiet or keep their voices down in the places like libraries, hospitals. Never shout or laugh loudly in public.

Also, never throw any rubbish on the ground. To keep the environment clean, they shouldn't drop litter everywhere.

And, if they bump into someone, they should always say, “Excuse me.”

What's more, it's important that they learn to wait for their turn.

Dear Wang Tao,

I'm excited to know that you are here in the UK for further education. You asked about the manners when visiting an English family. Here are my suggestions. I hope they can help you.

First, you must arrive on time. Remember not to be late. You should take some small presents to the host, such as flowers, chocolate or a bottle of red wine.

When you are having dinner with the host, you should not start until the host begins to eat. You had better not make much noise at the dinner table or speak with food in your mouth.

When you are about to leave, don't forget to say “Thank you!” After you go home, you can send the host a thank-you note.

I hope you will enjoy the life in the UK.

Yours sincerely,

Jim

Give a Helping Hand

I have some experiences of voluntary work. English is my favourite subject and I am good at it. So I often help children in my neighbourhood with English. I also work as a social worker to visit the old. Voluntary work helps me become more confident.

As volunteers, they should be helpful and treat others with kindness and warmth. They also should be good at something, such as singing or English.

There is a saying *The rose's in her hand, the flavor in mine.* It means that you will make yourself happy by helping others. So we should try our best to help the people in need.

Dear Chairperson,

I'm Wang Hua in Grade 8. I'd like to join your club. Here are my suggestions and activity plan.

To prevent pollution, we should take our own bags when going shopping instead of using plastic ones. And we had better take the public transport instead of driving cars.

I think the activity can be held in the school hall on Friday afternoon. First, we can show some pictures about the serious pollution on the earth. Then, a speech will be given on how to protect the environment in our daily life. Finally, students will be encouraged to think of more ways to protect the earth and share with others.

I am looking forward to your reply.

Best wishes,

Wang Hua

Dear all,

Today I want to talk about how to protect resources in our daily life. I've made a survey among my classmates, and I find some of them still have bad habits.

Some of my classmates still leave the tap running when brushing teeth. What a waste of water it is! Why not turn the tap off when we are not using it? Some students order too much and cannot eat it up. I think it is a good habit to order food according to our own needs. Besides, some students are used to wasting paper. They always use only one side of it, or even throw it away without using it. I think we should try to use both sides of it, or use it to make some small useful tools.

Thanks for listening. And let's take action to protect resources right now.

Like China, the UK is an old country with a long history. There're a lot of places of natural beauty, a large number of palaces and many castles. Lots of people go to visit them every day. London is its capital. There are many different museums there. You can learn a lot in these museums. The best time to visit the UK is from May to September. But the weather there changes often, so prepare for it before you go there. (80 words)

My parents and I like reading very much. There are many different types of books on the bookshelves in my home. We go to the city library to borrow books every week. History and science books are my favourite. Reading helps me relax after a busy day. We have a Reading Month twice a year in our school. During the Reading Month, our teachers recommend some books to us. We discuss these books with our classmates after class. I think reading is important and opens up a whole new world to us. 指导手册 8BU6 作文

Dear Sandy,↵
How are you? I haven't heard from you for a long time. I'm writing to tell you about a charity activity in our school↵
We held the charity activity on the playground in our school last Saturday evening. It began at 7 p.m. and ended at 8:30 p.m. All the teachers and students in our school took part in it. We also invited some people from local factories and companies. During the activity, we raised a lot of money. We will use the money to help the students in poor areas.↵
I feel it very meaningful and I hope more people will take part in such activities.↵
Does your school often hold charity activities? Write and tell me.↵
Yours sincerely,↵

ORBIS is a charity to help the blind people. In fact, most eye problems can be cured or prevented. However, many people can't afford to go to hospital. The doctors on the ORBIS plane fly to poor areas. They operate on those people with eye problems on the plane. They teach local doctors and nurses new skills as well. After learning from the ORBIS doctors, the local doctors can help the people with eye problems in their areas better.

Our environment in ten years: for better or worse?↵

Many students are optimistic about our environment in ten years. In fact, they think that the world will be a better place than it is now. More and more people are becoming volunteers to protect the environment. The government will take more action(s) to improve the environment.↵

However, other students are worried about the future. They think more trees will be cut down. Private cars will be more and more. They say the world will become more crowded.↵

I think we should plant more trees and pick up litter around us. We should work together to protect our home. ↵
